PRESS RELEASE

January 31, 2019

CA Technology Group changes Management Van Amerongen CA Technology and Fotein

As of 1 February 2019, Mr. Rob Veltman resigned as Director of Fotein BV. Mr. Edwin Willemsen has been appointed as the new Director. Mr. Willemsen has been part of the CA Technology Group since 2006, to introduce and commercialize new products and innovations, such as the new low oxygen solutions of b-Cat and the vacuum / MAP, bulk-size packaging of vQm. Fotein will continue to work closely with its partners, including the Research & Development department of Van Amerongen, managed by Nico Cornelisse.

The sales activities of Mr. Veltman for Van Amerongen CA Technology B.V. will be taken over by the Head of the Sales Department, Mr. Niels Remmelink, who does not require further introduction for most people, as he has been with Van Amerongen for over 20 years.

We wish Mr. Rob Veltman success with his new professional career.

The CA-Technology Group will be present at the upcoming Fruit Logistica in Berlin next week and hopes to welcome you to our booth (Hall 3.2 Booth A-21) and present you with the latest developments and innovations.
